

** Paving Notice **

NEXT WEEK - Starting Wed. August 1st- Fri. August 3rd. the roadway / parking cut-out repairs will begin. These roadway repairs will extend through the 3 days (depending upon weather and other possible delays possibly an additional day).

The asphalt will be removed over all repair areas so there will be a 1.5"- 4" drop off but can be driven over just drive through areas S-L-O-W-L-Y and with caution. The roadway & parking areas will ONLY – be this way until the weekend when the repair areas are paved back in level with the other existing asphalt. You may park your car in your garage or on the driveway **up close to the garage**, please keep your car at least 10 feet into the driveway and away from the street so our crews have room to do their work. **(Do not park in any of the parking spaces or along the roadways)** or make other arrangement to park your car off site.

You can expect delays if you want to get your car out of your driveway or while driving through the community... allow adequate time to make your appointments. Keep looking at the mailboxes and emails for any updates to the schedule. Thank you for your cooperation.
