

ATTENTION HEATHERBROOK RESIDENTS - PARKING DURING PAVING

As paving is occurring this week all residents (and their guests) are reminded that there will be little to no guest parking available. Actual paving is to occur Friday, August 3rd, weather permitting.

If you have more cars than will fit on your property (garage and driveway) then you will have to find alternate parking for your vehicle, within the rules of Valley Ponds. Please do not attempt to park in another community.

One area to consider is the Valley Ponds parking area adjacent to the pool. It is marked below and is Valley Ponds property.

Please note that the parking just in front of the clubhouse is 50% owned by Brittney Condo Association and 50% by Valley Ponds and is used for those going to the pool. This is **NOT AN AREA** for overflow parking (marked as X)

It is also legal to park along Valley Ponds Drive, however, this should not occur at an intersection. This roadway is regulated by the township, not the HOAs.

These are merely suggestions, should you have to relocate a vehicle. Each resident is responsible to execute their own plan.
